Foreword

Singhadurbar,
Kathmandu, Nepal

Tourism is one of the potential sectors for the economic development of Nepal. It becomes a major source of earning foreign currency. Expansion of tourism sector expands the employment and income generation opportunity. Due to location of birth place of Lord Buddha, center of faith of Hinduism Pashupatinath, world heritage sites and numerous culturally valued places, Nepal is considered major destination for social tourism. Possession of 8 of the 10 highest mountains in the world and many more natural assets makes it a hotspot destination for mountaineers, rock climbers and other many adventure tourists. The religious harmony among communities, linguistics and culturally diverse people and climatic and geographical variations lure visitors worldwide.

The Ministry is pleased to bring "Nepal Tourism Statistics 2018" as an annual publication. It aims to provide information about tourists by type, length of stay, purpose of visit and tourism activities, revenue generation, tourism industries and other miscellaneous information. Tourist incoming is remarkably increased in the year 2018; however it is not satisfactory. Nepal is aiming to bring two million tourists by 2020. For this, ministry already lunched Visit Nepal 2020 programme. Government of Nepal is focusing to develop tourism infrastructure; airports, roads, trails and other facilities. Current tourism policy, strategic action plan and development plan are keeping focus to develop tourism sector as important sector of economy, supporting people's livelihood and uplifting living standards. Ministry is committed to keep all efforts to improve and develop the tourism sector to put Nepal as leading place of tourism.

This statistical report is compilation of information received from Department of Tourism, Department of Immigration, Department of Wild life conservation, Nepal Rastra Bank, Nepal Mountaineering association and other related organizations. Efforts have been made to gather all tourism information in this report, though we might not able to include all information needed.

I believe the publication helps to fulfill the data gap and explore possibility for the development of tourism sectors. The information included in this publication will be useful to all stakeholders, policy makers, planners, entrepreneurs, researchers and all other interested in tourism sectors.

I am very much indebted to all the government and non-government organizations for providing necessary information. I would like to thank those who have been involved in bringing this publication. The Ministry always welcomes constructive comments and suggestions for improving this publication in the future.

PART II

TOURIST ARRIVALS

Year 2018 seems remarkable improvement in tourist arrivals. Tourist arrivals increased by 25 percent compared to 2017.

Out of total tourist arrivals, five countries occupy almost 50 percent. The proportion of tourists from these countries are; India (16.57%), China (13.1%), USA (7.83%), Srilanka (5.94%) and United Kingdom (5.41%) respectively. Similar seasonality exists in tourist arrivals as in previous year. The highest number of arrival is observed in November followed by March. There is no major change in sex and age group of tourist arrivals. By sex male (53.3%) and about highest percentage of arrivals were of age category 31-45 (30.7%) in year 2018.

PART IV

PURPOSE OF VISIT

Number of tourist by purpose of visit is a major indicator for tourism sector output. This indicator is very useful for evaluation of characteristics, type and economic and social contributions made by tourists and to plan and manage infrastructure, services and market economy accordingly. It also shows inflow of high value tourists. Historical data showed more than 60 percent of the tourist arrived with purpose of holiday celebration and pleasure. Year 2018 showed higher proportion (60 %) visited nepal for holiday and pleasure followed by adventure including trekking & mountaineering (16%), pilgrimage (14.4%) and other purpose (9.6%).
